PROGRESS IN CRYSTAL GROWTH AND CHARACTERIZATION OF MATERIALS
An International Review Journal

# MERCURY CADMIUM TELLURIDE AND RELATED MATERIALS
## Part II: Epitaxial Growth and Substrates

## Contents

| | | |
|---|---|---|
| **B. Pelliciari** | 1 | Te-rich liquid-phase epitaxy of $Hg_{1-x}Cd_xTe$ |
| **M. H. Kalisher, P. E. Herning and T. Tung** | 41 | Hg-rich liquid-phase epitaxy of $Hg_{1-x}Cd_xTe$ |
| **Jean-Pierre Faurie** | 85 | Molecular beam epitaxy of $Hg_{1-x}Cd_xTe$: growth and characterization |
| **C. J. Summers, B. K. Wagner and R. G. Benz II** | 161 | Chemical beam epitaxy of $Hg_{1-x}Cd_xTe$ and related binaries |
| **J. B. Mullin and S. J. C. Irvine** | 217 | Metalorganic vapour phase epitaxy of mercury cadmium telluride |
| **S. Sen and J. E. Stannard** | 253 | Developments in the bulk growth of $Cd_{1-x}Zn_xTe$ for substrates |
| **P. Rudolph** | 275 | Fundamental studies on Bridgman growth of CdTe |

The first part of this special publication on MCT, *Bulk Growth and Characterization*, appears as Volume 28 Number 1/2 1994.
